Gerber Architekten

Jakob-Henle House

In 1991, the “Jakob Henle Haus Lünen” health centre was built in the middle of Nordlünen, which emerged from the practice for internal medicine and nephrology founded in 1983. The L-shaped building adapts to the property, which borders the street on two sides. Towards the junction, the four-storey health centre welcomes its patients and visitors in both directions with an open entrance hall.
